Economy

Economy policy of local authorities has not changed since 1989 and aims at economic development of the commune. Because of highly dynamic investments, the level of communal infrastructure constantly increases. We have a water treatment plant of the latest generation and modern waste dump.

All these elements as well as preferences for investors contribute to perfect and stable conditions for business development. Many foreign investors has already situated their companies in Strzelce, like Mc Bride, Kronospan, Pearl Stream and Coroplast. Over 2 thousand active business entities are registered in the commune. Many of them are potential partners for cooperation.

Municipal Office offers assistance in dealing with formalities related to investment process. It also provides information regarding available financing sources for businessmen. We guarantee fast, professional and reliable attendance to investors.
